

AMENDMENTS TO THE CLAIMS:

This listing of claims replaces all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (Currently Amended) A ceramic material comprising:

a solid solution comprising:

a first ceramic material having a perovskite structure and defining a host lattice,
the first ceramic material comprising lead, zirconium and titanium; and

a second ceramic material having a cryolite structure and comprising $\{A_4(B_{2-2x/3}Nb_{2+2x/3})O_{11+x}V_{1-x}\}$, where A comprises barium or strontium, where B comprises strontium or calcium, where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

2. (Previously Presented) The ceramic material of claim 1, wherein the first ceramic material and the second ceramic material comprise a mixed crystal phase.

3. (Canceled)

4. (Previously Presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

5. (Previously presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where: $0 \leq x \leq 1$.

6. (Previously Presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

7. (Previously Presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

8. (Previously Presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

9. (Previously Presented) The ceramic material of claim 1, wherein the second ceramic material comprises

where V comprises an oxygen vacancy, and where $0 \leq x \leq 1$.

10. (Previously Presented) The ceramic material of claim 1, wherein the first ceramic material comprises $\text{Pb}(\text{Zr}_a\text{Ti}_{1-a})\text{O}_3$, where $0.5 \leq a \leq 0.6$.

11. (Previously Presented) The ceramic material of claim 1, wherein the first ceramic material comprises a mixed crystal phase, the first ceramic material comprising a PZT ceramic and an additional component having a perovskite lattice-type structure.

12. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises KNbO_3 .

13. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises $\text{Pb}(\text{M}^{\text{II}}_{1/3}\text{M}^{\text{V}}_{2/3})\text{O}_3$, where M^{II} comprises Mg, Zn, Co, Ni, Mn, or Cu, and where M^{V} comprises Nb, Ta, or Sb.

14. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises $\text{Pb}(\text{M}^{\text{II}}_{1/2}\text{M}^{\text{VI}}_{1/2})\text{O}_3$, where M^{II} comprises Mg, Zn, Co, Ni, Mn, or Cu, and where M^{VI} comprises W.

15. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises $\text{Pb}(\text{M}^{\text{III}}_{1/2}\text{M}^{\text{V}}_{1/2})\text{O}_3$, where M^{III} comprises Fe, Mn, Cr, or Ga, and where M^{V} comprises Nb, Ta, or Sb.

16. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises $\text{Pb}(\text{M}^{\text{III}}_{2/3}\text{M}^{\text{VI}}_{1/3})\text{O}_3$, where M^{III} comprises Fe, Mn, Cr, or Ga, and where M^{VI} comprises W.

17. (Previously Presented) The ceramic material of claim 11, wherein the additional component comprises $\text{Pb}(\text{Li}^{\text{I}}_{1/4}\text{M}^{\text{V}}_{3/4})\text{O}_3$, where M^{V} comprises Nb, Ta, or Sb.

18. (Currently Amended) A ceramic comprising:

a material having a formula $[\text{of}] \text{A}_{1-b-c}\text{B}_b\text{C}_c$, where $0 \leq b \leq 0.5$ and $0 < c \leq 0.01$ $0 \leq c \leq 0.01$;

wherein:

A comprises $\text{Pb}(\text{Zr}_a\text{Ti}_{1-a})\text{O}_3$, where $0.5 \leq a \leq 0.6$;

B comprises an additional component having a perovskite lattice-type structure;
and

C comprises a ceramic material having a cryolite lattice-type structure.

19. (Previously Presented) The ceramic of claim 18, further comprising up to 3 mol.% of PbO.

20. (Previously Presented) The ceramic of claim 18 which is substantially free of KNbO_3 .

21-23. (Withdrawn)

24. (Previously Presented) The ceramic material of claim 1 which is substantially free of KNbO_3 .

25. (Withdrawn)
